Aayushman Pratap Singh

Third Year Undergraduate–Department of Computer Science & Engineering
Ghaziabad, Uttar Pradesh
+91-9968347111 as7310@srmist.edu.in Aayushman Pratap Singh dismantled1

OBJECTIVE

I am a Computer Science student driven by a keen interest in **Data Science, Software Development, ERP systems, and data-driven problem solving**. I've built a **strong foundation in Data Structures and Algorithms with consistent problem-solving practice**, which allows me to approach coding with logic and precision. I have **practical experience in Python-based data analysis using Pandas and NumPy**, where I enjoy the process of turning raw information into meaningful insights.

EDUCATION

SRM Institute of Science and Technology **Aug 2023 - May 2027**
B.Tech - Computer Science and Engineering *Ghaziabad, Uttar Pradesh*

PROJECTS

Fully Functional Portfolio · *HTML, CSS, JavaScript* · Portfolio **Feb 2026**

- Developed a responsive portfolio website featuring an F1 racing-inspired theme. Built using HTML, CSS, and JavaScript with features like smooth animations, interactive elements, and a functional contact form. The site is fully responsive and includes custom effects like parallax scrolling and glassmorphism UI components.

CERTIFICATIONS

CS101: Introduction to Computer Science I | Java Certificate **Oct 2024**
Slayor.org · 4264583661AS

Introduction to ERP using GBI 3.30 on SAP S/4HANA | SAP Certificate **Jan 2026**
SAP University Alliances

VOLUNTEERING

Computer Society of India | Certificate of Appreciation **Sept 2024 – Jan 2026**
Content Team Co-Lead

- Led the content team for technical events and hackathons, coordinating between organizers, sponsors, and participants while managing documentation including event workflows, sponsor deliverables, and participant communication.
- Demonstrated leadership and problem-solving during Hackstasy '25 by resolving real-time technical and logistical issues, handling multiple responsibilities to ensure smooth event execution.

TECHNICAL SKILLS

Programming Languages: Python, JAVA, SQL, C, C++, HTML, CSS, JavaScript
Tools and Technologies: Pandas, NumPy, Excel, Django, GitHub, VS Code, Eclipse IDE
Technical Skills: Full Stack Web Development, Data Analysis
Hardware Skills: Data Structures and Algorithms, Object-Oriented Programming
Design and Simulation Tools: SAP S/4HANA (ERP fundamentals, hands-on experience)

LANGUAGES

English [Professional Working Proficiency], Hindi [Native Proficiency]
